

The Missing Link in Rehabilitation

NeuroMuscular Reprogramming®

72 Hr Certification Program

How Does It Work?

NMR uses muscle testing to assess dysfunctions of the coordination system resulting from traumatic injury and overuse. It cues the brain for new learning resulting in the immediate correction of neuromuscular imbalances. NMR works with the body's organizational intelligence. It addresses neuromuscular pain at its source: the motor control center of the brain.

NMR is easy on the practitioner. It uses strategy not force. Clients love the results they get with NMR. Your practice can expand immediately when you add NMR to your bodywork skills.

NMR can provide solutions for conditions which have not previously responded to therapy. Practitioners who have completed the training program have been amazed at how deeply effective their work has become with the addition of NMR. This advanced therapy blends well with other bodywork styles and is the perfect adjunct to chiropractic, physical therapy and sports injury rehabilitation.

Fridays from 7 - 10 pm and

Saturdays & Sundays from 9:30 am - 6 pm

CEU's 72 Hours

Tuition: \$2068

Dates:

Sept 19, 20, 21; Oct 17, 18, 19,

Nov 14,15,16 and Dec 12,13,14

"This is truly innovative work! I've never seen anything like it."
Jerry Goynias LPT, Massage School Owner, NC

Achieve dramatic results for your clients:

- ◆ Accelerate recovery from acute injuries
- ◆ Resolve the persistent effects of chronic injuries
- ◆ Alleviate the debilitating effects of repetitive stress
- ◆ Optimize athletic performance
- ◆ Restore muscle coordination quickly
- ◆ Increase range of motion, energy, vitality, strength and stamina throughout the body

Jocelyn Olivier, CMT MBW

is the developer of NeuroMuscular Reprogramming®. She has been a visionary and innovator in the fields of rehabilitation and education for 40 years.

As founder and director of the Institute of Conscious BodyWork, Alive & Well! Jocelyn has trained over 10,000 senior bodywork practitioners. She has advanced our understanding of the value of integrating neurological reprogramming with functional re-education to accomplish the highest level of recovery from acute and chronic injuries.
