

## NeuroMuscular Reprogramming® for *SCOLIOSIS*

**Achieve dramatic results for your clients!**

**“This is truly innovative work!  
I’ve never seen anything like it.”**

*Jerry Goynias LPT, Massage School Owner Raleigh, NC*

### **Scoliosis is a lifelong management issue**

NeuroMuscular Reprogramming for Scoliosis teaches protocols for stabilizing postural and functional support for the spine. Brain function integration protocols for testing and correcting deeper level coordination dysfunctions that contributed to the collapse of balanced postural and functional structural support makes this work the most effective primary approach to Scoliosis.

These two approaches used together in the correct order dramatically reduce the chronic pain experienced by those living with Scoliosis, and provide self management strategies for the rest of a Scoliosis client’s life. A knowledge of their own pattern puts the power in the client’s hands to engage in conditioning that is specific to their problem.

- o Sunday we will work with Scoliosis clients.

**Jocelyn Olivier, CMT, MBW**

Founder and Director of the Institute Conscious BodyWork, Alive & Well!, and Healus Neuro Rehab Center, draws on 50 years of clinical experience finding solutions for problems that have not previously responded to therapy.

Her invention of **NeuroMuscular Reprogramming®** is a perfect adjunct to physical therapy, strength and fitness training, chiropractic and sports medicine.

Jocelyn Olivier has applied NMR Protocols to dozens of Scoliosis clients over her long career as a clinician and teacher. Clients are able to maintain a mostly pain free existence as a result of NMR.
